TREATMENT ADD-ONS

Boost your hair to better health by adding one or two of our hair care and growth amplifiers.

SCALP EXFOLIATION

This soothing scalp massage improves circulation, relieves muscular tension and removes build-up. A combination of invigorating Hawaiian sea salt to gently exfoliate, apple fruit to restore hydration - with green tea, chamomile and a blend of other botanicals to soothe inflammation and irritation, this invigorating scrub leaves a healthy scalp environment that aids growth and promotes length retention.

N 10,000

THE TRICHOLOGY CONSULTATION

Trichology is hair and scalp science.
Think of this as a **hair education appointment**.

We begin with a microscopic examination of your hair and scalp followed by an evaluation of your cosmetic, holistic and general lifestyle choices. From this we will

- Establish the root cause of issues you are experiencing
- Establish your hair character traits (Texture, scalp type, porosity, density, hydration etc)
- Determine a treatment course and products to use
- Answer all your burning questions

By the end of this session, you will have clarity on the behavior pattern of your hair and scalp and be well equipped to achieve your hair goals and desires.
